### ROOFING DEBRIS DISPOSAL FEE

A roofing debris hauling fee shall be paid at the time a demolition or roofing permit application is made and the owner or contractor intends to haul its own debris. The roofing and demolition debris hauling fee will be one dollar and fifty cents (\$1.50) per cubic yard. The number of cubic yards calculated using the formulas in this section shall be multiplied by \$1.50 to establish the debris hauling fee for each permit. "Ordinance No. 3944-06; Sec. 74-128"

Roofing Debris – The cubic yards of debris hauled from a roofing project will be determined by multiplying the area of the roof in square feet (measured in the slope of the roof); times a conversion constant which provides the volume of the debris of the roof in cubic yards. The conversion constant for a roof is 0.006.
